

About us

LWF Ukraine and partners, respond to emergency needs of displaced and war-affected communities in Ukraine, being exposed to the damaging physical and emotional impact of shelling and conflict.

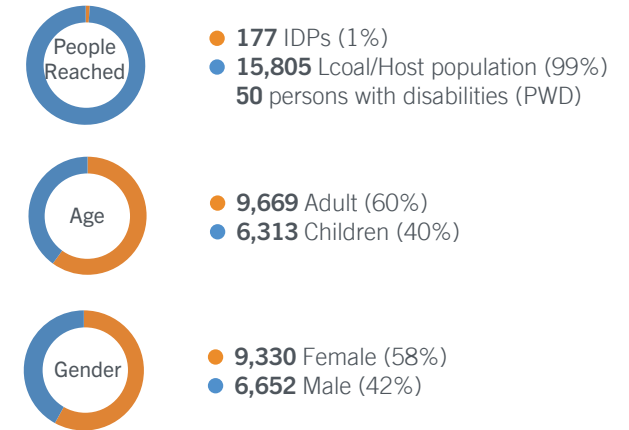

Key priorities are safe shelter construction and repair, humanitarian assistance (e.g. distribution of NFIs), education, livelihood support, and mental and psychosocial care.

Who we work with

In 2024, LWF Ukraine supported **15,982** people.

Brusnitsyna Antonina Ivanovna
Director of Mykola-Komyshuvata school, in Berestyn district, Kharkiv Oblast.

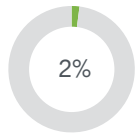

“I have been a director for 26 years and have worked in the school for 45 years. I started as a Geography teacher and later became Deputy Director, then Director. I am committed to being a director until the war ends and everybody comes back, only then I will rest.”

“I am thankful for the air-raid shelter renovated by LWF Ukraine, which allows us to return to in-person classes instead of online education. Without this option, our school might have had to close due to government educational reforms. If the number of students declines and we continue operating online only, the school will be merged with another school.”

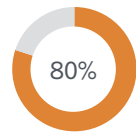

Our impact

LWF Ukraine made a significant impact by delivering holistic support to war-affected communities, addressing urgent needs and fostering long-term recovery. We provided humanitarian assistance, through safe shelter, distribution of non-food items, hygiene kits, and winterization kits, to meet urgent needs and protect war-affected communities. We rehabilitated education facilities to access safe, inclusive, and in-person education.

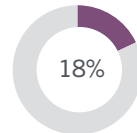

Mental health and psychosocial support offered to students, parents, and teachers improved emotional recovery and resilience building. In addition, livelihood recovery initiatives helped rebuild income opportunities, and to build economic resilience, promote stability, and more self-reliance for people affected by the ongoing war.

Climate & Resilient Livelihoods

Protection & Social Cohesion
756k €

CLIMATE & RESILIENT LIVELIHOODS

Equipping **3** Blyznuky Employment Centres with IT equipment and furniture empowered **941** persons to actively pursue employment opportunities (job search and interview preparations).

Livelihoods training helped **16** Blyznuky community members in their job prospects and to build economic resilience through new skills and knowledge.

QUALITY SERVICES

6 underground shelters were transformed into classrooms, enabling **3,485** students and teachers to safely return to in-person learning with proper furniture, supplies, and equipment.

More than **132** staff and patients benefit daily from the upgraded services at Kharkiv's oncological hospital, thanks to improved infrastructure and care conditions.

3,783 persons received food kits, **2,488** persons received Non-Food Items (NFIs), **3,211** persons received Hygiene kits

PROTECTION & SOCIAL COHESION

253 persons were offered mental health and psychological support

5 heating points were installed in Kharkiv, serving over **530** persons daily with electricity, warmth, and hot meals during winter power outages.

Esavlenko Svitlana
Director of the Lyceum

“Heating point here helps the kids to be able to socialise. We have a generator, so we have internet even during blackouts. We were able to provide electricity for everybody. We tried to do our best and everybody knows us, and are happy to come here. A lot of elderly people come to have a hot meal. We also provide first aid, and community-based psychosocial support” she said.

Heating point situated in Lyceum 107, Barabashovo 38B in Kharkiv. During shelling and power outages, the heating point allows community members to come to a safe and heated place. People can charge their phones, enjoy tea, coffee and meals, and are happy to come here. Thanks to LWF Ukraine equipped the heating point. This includes the provision of lamps and flashlights, household equipment and goods, toys, food and beverages. The heating point is also used as a community centre, with many events organized for the community to socialise.
